Value added course in
DATA ENTRY & ANALYSIS
Syllabus

OBJECTIVES:

The main objective of this course is to acquaint students with some basic concepts in statistics. They will be introduced to some elementary methods of data entry & analysis.

CONTENTS:

- Meaning of Primary and Secondary Data
 - Qualitative data (Attributes): nominal and ordinal scale.
- Quantitative data (Variables): Interval and ratio scale,
- discrete and continuous variables,
- Raw data.
- Discrete Data
- Continuous Data
- Graphical and Diagrammatic Representation
- Bar Diagram
- Multiple Bar Diagram
- Subdivided Bar Diagram
- Pie Diagram
- Less than Ogive Curves and Greater than Ogive Curves
- Histogram
- Calculation of mode using Histogram
- Calculation of Median and Partition Value from ogive Curves

Data Entry and Analysis

ANNUAL REPORT 2018-2019

The Department Of Statistics is Conducted Value added courses in "Data Entry And Analysis" for the student of B.Sc I ,II in the year 2018-19 .This course is run on Self funding basis and free of cost .The aim of this course is to provide basic tools and techniques in data entry and statistical analysis to the students. this course provide theoretical and practical knowledge of data entry and analysis.

This year 17 students in which 10 girls and 7 boys are admitted for coaching programme. The department designed syllabus for this course and executed it in the first term. The course is introduced for the entry level classification and graphical representation are the topic not included in syllabus but they are very much usefull for to understand the basic concepts in descriptive statistics.

Faculty in the department conducted extra lecture beside the regular schedule of the college. Based on the syllabus taught an examination was conducted to test the progress of the students. An effort was made to successful completion of every course; we are giving certificates to the students.
