Report of 'TAGETUS & MORINGA PLANTATION'

Date: 08/08/2018

Tagetus Plantation Programme was organized in the College Campus by the Department of Botany. All the students and teachers participated in this programme. Firstly, we started planting saplings in the Botanical Garden of our college campus and after that, we planted saplings in the nearby local areas of our college. Students also made some posters and banners on the importance of tree plantations. We pasted banners and posters in the area around our college so that people read these and know the importance of tree plantation. The principal of our college gave a passionate speech on the topic of plantation. He said, rare & endemic medicinal plants should be conserve and maintained.

Dr. K.M. Bhise, HoD, Department of Botany supported the tree sapling plantation drive and motivated the students to take care of the saplings so that they grow into healthy trees. Students were motivated and advised to take care of the saplings planted by them.

We hope that such activities shall sensitize and encourage the students to

"Save the trees, Save the Earth. We are the guardians of nature's birth".

Outcomes:

1. Students got the knowledge of important medicinal Plants.
2. Students got the skill of plantation & conservation of plants.

Beneficiaries: Total 60

Teacher-20 & Students-40
