Value Added Course- Internet of Things (IOT)

Action Report

The department of BCA conducting Value Added courses every year for the students since 2015. These courses are compulsory for BCA-III year which is run on self-funding basis & Free of Cost.

The aims of these courses are to provide the computer knowledge to the students. The duration of each course is one month and each course is split into two sections viz. theory & practical.

The department has been started Value Added Course namely Hardware Maintenance in 2015-16. The significance of this course is to introduce knowledge about the computer & its hardware parts as well as basic hardware components of computer & its uses. In 2016-17 another course was started that is Digitalization in continuation of previous course. There are multiple benefits of Digital Learning in transforming a student's life like: Decision making, Visual Learning, Cultural Awareness, Improved Academic Performance etc. In 2017-18 & 2018-19 new course was started with continuation of previous course that is Cyber Security. The purpose of this course is to understand the concept of Cyber Security & what kinds of precautions are needed. Challenges that we have to face in digital life and different techniques for handling computer attacks etc. In 2019-20 new course was started that is Internet of Things (IOT). The purpose of this course is to understand the significance of IOT, Working of IOT, and How IOT can help, case study of IOT etc.

The department of BCA is starting course that is Internet of Things (IOT) in 2020-21 to BCA – I students. The main purpose is to understand that how IOT is effectively useful in our life.

Department of Computer Application

Value Added Course 2020-21

Internet of Things (IOT)

Duration- 30 hrs.

Syllabus

Unit 1: Introduction to Internet of Things (10)

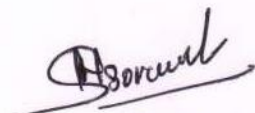

- 1.1. What is Internet?
- 1.2. The Technology "Internet of Things"
- 1.3. Usefulness of IoT
- 1.4. Professional Benefits
- 1.5. Application of IoT

Unit 2: Internet of Things Environment (10)

- 2.1. Introduction to Input and Output devices
- 2.2. Introduction to embedded system
- 2.3. Components of embedded systems
- 2.4. The controlling unit "Microcontroller".
- 2.5. Actuators.

Unit 3: Sensors & Internet of Things: (10)

- 3.1. Introduction to sensors.
- 3.2. Analog & Digital Sensors.
- 3.3. How to use sensors.
- 3.4. Types of sensors
- 3.5. Case Study

Online Multiple Choice Questions Quiz on Internet Of Things (IOT) 2020 - 2021

* Required

Dr. Patangrao Kadam Mahavidyalaya, Ramanandnagar(Burli)

Department of B.C.A.

Value Added Course Name - Internet of Things (IOT)

Class - B.C.A. - I

Total Marks - 30

Instructions:

- 1) All questions are compulsory.
- 2) Each question carries 2 marks.

1. Name of the Student *

2. Q.1) IOT stands for? *

Mark only one oval.

- Introduction of Things
- Internet of Things
- Internet of Tracking
- Interaction of Things

3. Q.2) Which of the following is true about IOT? *

Mark only one oval.

- The term Things in the Internet of Things refers to anything and everything in day to day life
- IOT has greater transparency, control, and performance.
- Both A and B
- None of the above

4. Q.3) IOT is an advanced automation and analytics system which deals with? *

Mark only one oval.

- Sensor, Networking
- Electronic
- Cloud Messaging
- All of the above

5. Q.4) Which of the following is not an advantage of IOT? *

Mark only one oval.

- Improved Customer Engagement
- Security
- Reduced Waste
- Enhanced Data Collection

12. Q.11) Which of the following is being used by Internet of Things? *

Mark only one oval.

- Satellite
- Cable
- Radio Identification Technology
- Broadband

13. Q.12) The application of Internet of Cows which is cow location technology is *

Mark only one oval.

- Yes are internet of things
- Not internet of things
- Can't say
- None of these

14. Q. 13) In the current market scenario, IOT captures the maximum share in which one of these? *

Mark only one oval.

- Industry
- Security
- Healthcare
- Home automation

15. Q.14) IOT devices must have: *

Mark only one oval.

- USB port
- A unique identification
- Wired connectivity
- All of the above

16. Q.15) The levels of IoT are called as *

Mark only one oval.

- Nodes
- Tires
- Items
- Blocks

Action Report on Feedback

The BCA department was organized short Value Added Course in every year since 2015. The course duration was 30 days. The course aims to offer the best possible environment & learning experience to encourage students to their full potential & capability.

The feedback analysis process has put an increasing emphasis on the need for involvement of students in the course. After successful completion of each & every course we are taken feedback from students.

Following are the some feedbacks –

1. Students are quite satisfied with the time spent by teachers on session of the course.
2. Majority of the students agreed that the courses which were organized by department are helpful in future and improved the knowledge of students in day- to- day life or daily life.
3. Students are satisfied with the overall assessment and topics or aspects of courses which are useful, applicable in their work and these courses are totally free of cost.
