Advanced and Slow Learners Action Report: 2020-2021

Department had conducted a diagnostic test for B.Sc. I students on the taught topic. According to the marks students got in the test, we made Advanced and Slow Learners batch. The Advanced and Slow Learners batch are almost similar in following fact that:

1. Same Faculty teach in both the batches.
2. No difference in the study material provided.
3. Exactly same teaching hours for Advanced and Slow Learners batches.

But Advanced Learners batch consist of some eligibility and good grasping power, so we have instructed Advanced Learners batch to guide and to help Slow Learners batch so that Slow Learners batch can get some study techniques from those students. We also provided them with video lectures and animated videos of subject related topic. We gave them extra hours of teaching. After doing all this we got good university result of slow learners batch.
