Seminar Activity –Report

To motivate the students for higher studies and to promote stage daring department of Physics organized a Seminar activity during year 2022-23. Seminar activity has been conducted dated 14th December 2022. Total 11 students and 3 faculties were present. During this activity, B.Sc. III students delivered seminars with help of Power Point Presentations (PPTs).

Seminar is a special time for a unique intellectual activity. It is focused but freeflowing, searching, questioning, going deeper to understand ideas from the text, from others and from within yourself. Most of the young graduates lack of confidence and fluency while interacting verbally. Coming either from rural or sub-urban background, many students hold good academic record and industrial skills but lack behind while expressing themselves. This small yet major drawback often hinders the achievements of students while campus placement. Speaking about a Syllabus topic in seminars boosts the confidence of the students preparing them precisely for interviews and group discussions.

Outcomes

- 1) Increased confidence level of students.
- 2) Student gained stage daring.

Beneficiaries- 11

Mr. Vishwaraj Shikhare discussing about Flipflop

Student Miss. Nikita Patil explained concept of toggle

Mr. Unmesh Shinde discuss about types of gates

Student discussing about seminar topic
