Department of Physics

2023-24

Seminar Activity –Report

To motivate the students for higher studies and to promote stage daring, department of Physics organized a Seminar activity during year 2023-24. Coming either from rural or sub-urban background, many students hold good academic record and industrial skills but lack behind while expressing themselves. This small yet major drawback often hinders the achievements of students while campus placement.

Speaking about a Syllabus topic in seminars boosts the confidence of the students preparing them precisely for interviews and group discussions.

Seminar is a special time for a unique intellectual activity. It is focused but freeflowing, searching, questioning, going deeper to understand ideas from the text, from others and from within yourself. Most of the young graduates lack the confidence and fluency while interacting verbally. Seminar activity has been conducted dated 6th December 2023. Total 08 students and 3 faculties were present.

During this activity, B.Sc. III students delivered online seminars with help of Power Point Presentations (PPTs) at audio visual hall.

Outcomes:-

- 1) Improver oratory skills
- 2) Student gained confidence

Beneficiaries- 08

Student Mr. Aniket Jadhav. explained concept of relativity

Students discussing about seminar topics
