Programme Outcome

- Digitalization can provide students with access to a vast array of educational resources beyond traditional textbooks
- Digital tools enable personalized learning experiences tailored to individual student needs and learning styles.
- Digital platforms facilitate collaboration among students and with teachers, breaking down geographical barriers.
- Participation in digitalized learning environments equips students with essential digital literacy and technical skills necessary for success in the modern workforce.
- As technology continues to permeate every aspect of society, proficiency in digital tools and technologies is increasingly essential in various professions
